APPLICATION OF SAFARI COMMUNIATIONS, INC. FOR AUTHORITY TO PROVIDE RESOLD AND FACILITIES-BASED LOCAL EXCHANGE AND INTEREXCHANGE SERVICE

Safari Communications, Inc. ("Safari" or "Applicant"), pursuant to S.C. Code Ann. § 56-9-280(B)¹ and Section 253 of the Telecommunications Act of 1996², respectfully submits this Application for Authority to Provide Resold and Facilities-Based Local Exchange and Interexchange Service ("Application") in the State of South Carolina and for local service offerings to be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C; and for interexchange service offerings to be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

¹As amended by Act No. 354, signed by the Governor on June 6, 1996.

²Telecommunications Act of 1996, 47 U.S.C. § 253 (1996).

Safari intends to offer interexchange service to both business and residential customers throughout the state. Applicant intends to provide local exchange service to customers located in non-rural local exchange carriers' service areas of South Carolina. Should its Application be granted, Safari plans to commence offering service immediately upon the establishment of the appropriate and necessary resale arrangements with the incumbent Local Exchange Carriers ("LECs"). Applicant will be negotiating an interconnection/resale agreement with BellSouth Telecommunications, Inc. d/b/a AT&T South Carolina ("AT&T") to provide local service and other equivalent providers as its underlying interexchange carriers.

Approval of this Application will promote the public interest by increasing the level of competition in the South Carolina telecommunications market. Ultimately, competition will compel all telecommunications service providers to operate more efficiently and pass the resultant cost savings on to consumers. In addition, as a result of competition, the overall quality of local exchange and interexchange service will improve.

In support of its Application, Safari states as follows:

III. Safari Possesses the Technical, Managerial and Financial Expertise Necessary to Provide Local Exchange and Interexchange Service

Safari possesses the requisite technical, financial and managerial capabilities to operate as a competitive telecommunications provider. These capabilities are explained in detail below.

1. Financial Qualifications

Safari is financially able to provide the services proposed in its tariff as evidenced by its Projected Forecast from January through December 2010.

2. Managerial Qualifications

Safari's senior management team is highly skilled, having acquired considerable experience in the telecommunications industry. Using this extensive expertise, Safari's management team has developed innovative marketing strategies. In conjunction with effective financial and operational measures, these marketing strategies will enable the company to provide quality service at competitive rates, while resulting in profitable operations for the Applicant. Safari has extensive experience in the technical, managerial, and financial aspects of the telecommunications industry.

3. Technical Qualifications

Applicant's key management personnel have significant business and telecommunications experience. Safari is in the process of obtaining authorization to provide local and interexchange service nationwide. No such applications have been denied or dismissed. Applicant will also rely upon the technical expertise and telecommunications experience of its underlying carriers.

Safari will initially resell the facilities of the existing LECs or underlying carriers that presently serve South Carolina. Safari will primarily resell the facilities and services of AT&T. Safari will also use unbundled network elements and services purchased from AT&T and other incumbent local exchange providers, where applicable.

Applicant's current business and network plans call for market entry via resold LEC and IXC facilities. When customer demand warrants, Applicant proposes to offer resold and facilities-based local exchange services. Such services will be provided by utilizing the facilities incumbent local exchange carriers ("LECs"), as well as through Applicant's own facilities.

Applicant seeks authority to resell and provide through its own facilities local exchange services throughout the State primarily in the areas served by AT&T. Applicant's local calling areas initially will coincide with the incumbent local exchange carrier's local calling areas. Upon its entry into the South Carolina market, Applicant intends to install equipment for the provision of local exchange services. When Applicant installs facilities in South Carolina, it will probably use the following or a similar configuration of equipment: Applicant will provide voice and high speed data services through a combination of the latest technology switching and transport media. The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies.

The hub portion of the switch will interconnect with the public switched network on Signaling System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via Applicant constructed facilities. Its services will be available on a full-time basis, twenty-four hours a day, seven days a week, to customers within the geographic boundaries of the State of South Carolina. Customers will be billed by Applicant.

Applicant is committed to providing access to a local operator, directory assistance, 911 services, and dual relay services. Applicant is also willing to accept its obligations to collect 911 and dual relay service surcharges from its local exchange customers, and to remit those funds to the appropriate authorities.

As the foregoing illustrates, Safari possesses considerable telecommunications expertise. Safari is technically qualified to provide local exchange and interexchange telecommunications services in South Carolina.

IV. Approval of Safari's Application is in the Public Interest

Granting Safari's Application is consistent with S.C. Code Ann. § 58-9-280(B), as amended by 1996 Act No. 354, and, in that regard Applicant makes the following representations to the Commission:

- a. Applicant possesses the technical, financial, and managerial resources sufficient to provide the services requested;
- b. Applicant's services will meet the service standards required by the Commission;

- c. The provision of local and interexchange services by Applicant will not adversely impact the availability of affordable local and interexchange service;
- d. Applicant, to the extent it is required to do so by the Commission, will participate in the support of universally available telephone service at affordable rates; and,
- e. The provision of local and interexchange services by Applicant will not adversely impact the public interest.

The demands of a competitive market are a better means to achieve affordability and quality of service than a monopoly environment. As competitors vie for market share, they will compete based upon price, innovation and customer service.

Those providers trust that offer consumers the most cost effective products will gain market share. In contrast, providers whose products do not meet the needs of consumers will lose market share and, ultimately, be eliminated from the industry.

Additionally, Safari's entry into the local exchange and interexchange markets will not unreasonably prejudice or disadvantage any telephone service providers. Incumbent local exchange carriers presently serve a large majority of the local exchange customers in South Carolina. The major advantages of incumbency (i.e., ownership of the existing local network as well as access to, and long-standing relationships with, every local customer) constitute a substantial obstacle to new entrants. Moreover, exchange services competition will stimulate the demand for the services supplied by all local service carriers, including those of the incumbent LECs. Thus, in a competitive market, there will be increased potential for such LECs to generate higher revenues. Additionally, in a competitive market, incumbent providers will have market incentives to improve the efficiency of their operations, thereby reducing their costs and ultimately their profit margins. Finally, it is important to recognize that in a competitive market, incumbent LECs will derive revenues from both resellers of their local exchange and interexchange services as well as facilities based competitive local exchange providers.

Currently, South Carolina consumers have a limited choice with regard to the provision of local exchange telecommunications service. A competitive local and interexchange service market comprised of incumbents and competitive providers such as Safari will offer consumers a competitive option and, therefore, will better satisfy the needs of various market segments. In this regard, approval of this Application is clearly in the public interest.

V. <u>Description of Services Offered and Service Territory</u>

For informational purposes, Safari has filed with this Application an illustrative price list based on Safari's current expectations regarding local services. (Exhibit "E"). Safari expects to offer a full array of services and seeks authority to provide the following services:

Interexchange (switched and dedicated services):

- A. 1+ and 101XXXX outbound dialing;
- B. 800/888 toll-free inbound dialing;
- C. Calling cards; and
- D. Data Services.

Local Exchange:

- A. Local Exchange that will enable customers to originate and terminate local calls in the local calling area served by other LECs.
- B. Switched local exchange services, including basic service, trunks, carrier access, and any other switched local services that currently exist or will exist in the future.
- C. Non-switched local services (e.g., private line) that currently exist or will exist in the future.
- D. Centrex and/or Centrex-like services that currently exist or will exist in the future.
- E. Digital subscriber line, ISDN, and other high capacity services.

Prior to providing local exchange services to the public in South Carolina, Safari will file a complete Final Tariff and/or Price List with the Commission. Furthermore, Applicant submits contemporaneously with this application its proposed tariff for local exchange service (Exhibit E) and interexchange service (Exhibit F), which contain a description of services to be provided, all rules and regulations applicable to such services, and proposed rates for such services.

VI. Waivers and Regulatory Compliance

Safari requests that the Commission grant it a waiver of those regulatory requirements inapplicable to competitive local service resellers such as Safari. Such rules are not appropriate or necessary for competitive providers and constitute an economic barrier to entry into the local exchange market.

1. Financial Record-Keeping System

- a. Safari respectfully requests that it be exempt from any record-keeping rules or regulations that might require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed by the FCC as a means of regulating telecommunications companies subject to rate base regulation.
- b. As a competitive carrier, Safari maintains its book of accounts in accordance with Generally Accepted Accounting Principles ("GAAP"). Neither the FCC, nor the Commission, has required Safari to maintain its records under the USOA for purposes of Safari's interexchange operations. Thus, Safari does not possess the detailed cost data required by USOA, nor does it maintain detailed records on a state-specific basis. As a competitive provider, Safari's network operations are integrated to achieve maximum efficiency. Having to maintain records pertaining specifically to its South Carolina local service operations would place an extreme burden on Safari.
- c. Moreover, Safari asserts that because it utilizes GAAP, the Commission will have a reliable means by which to evaluate Safari's operations. Therefore, Safari hereby respectfully requests to be exempt from the any USOA requirements of the Commission.

d. In addition, the Company hereby respectfully requests a waiver of 26 S.C. Code & Ann. Regs. 103-610, which requires books and records to be kept in the State of South Carolina, but rather, the Company desires to keep its books and records at its principal place of business.

2. Local Exchange Directories

Applicant respectfully requests a waiver of the requirement in Rule 103-631 to publish and distribute local exchange directories. Safari will make arrangements with the incumbent LECs whereby the names of Safari's customers will be included in the directories published by the incumbent LECs. LEC directories will also be modified to include Safari's customer service number. These directories will be distributed to Safari's customers. This approach is entirely reasonable and will have a direct benefit to the customers of both Safari and the incumbent LEC since they need only refer to one directory for a universal listing of customer information. It would be an unnecessary burden on Safari to require that it publish and distribute its own directory to all customers located within each exchange area, particularly since nearly all of these customers will be customers of the incumbent LECs. It is more efficient for Safari to simply include its limited customer list in the existing directories of the incumbent LECs.

3. Flexible Regulation of Local Services and Alternative Regulation of Interexchange Services

Applicant respectfully requests that its local service offerings be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C. Additionally, Applicant respectfully requests that its interexchange service offerings be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

4. Marketing Practices

Pursuant to the South Carolina Public Service commission's Order No. 95-658 (issued March 20, 1995), Applicant makes the following affirmation relating to the Applicant's provision of services:

As a telephone utility under the regulation of the Public Service Commission of South Carolina, Carrier does hereby assert and affirm that as a reseller of intrastate telecommunications service, Carrier will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, Carrier will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. Carrier understands that violation of this provision could result in a rule to show cause as to the withdrawal of its certification to complete intrastate telecommunications traffic within the state of South Carolina.

5. Maps

Applicant's local exchange calling areas will initially mirror the service areas of the incumbent local exchange carriers; therefore, Applicant hereby respectfully requests a waiver of the map-filing requirement pursuant to 26 S.C. Code & Ann. Regs. 103-612.2.3 and of 26 S.C. Code Ann. Regs. 103-631 requiring publication of directories.

VII. Conclusion

This Application demonstrates that Safari Communications, Inc., possesses the technical, financial and managerial resources to provide resold and facilities-based local exchange and interexchange service in the State of South Carolina. Furthermore, granting this Application will promote the public interest by increasing the level of competition in the South Carolina telecommunications market. Ultimately, competition will compel all exchange telecommunications service providers to operate more efficiently and pass the resultant cost savings on to consumers. In addition, as a result of competition, the overall quality of local exchange and interexchange service will improve. As stated above, Applicant does not intend to provide local service, by its own facilities or otherwise, to any customer located in a rural incumbent LEC's service area, until Applicant provides such LECs notice of intent at least 30 days prior to the date of the intended service.

Wherefore, Safari Communications, Inc., respectfully petitions this Commission for authority to operate as a reseller and facilities-based provider of local exchange and interexchange telecommunications services in the State of South Carolina and for local service offerings to be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C; and for interexchange service offerings to be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C, in accordance with this Application and for such other relief as it deems necessary and appropriate.

Respectfully submitted,
